23/192 - TO RECEIVE A REPORT FROM A CITY OF YORK COUNCILLOR

City Cllr. Anne Hook reported that –

- There was a motion at the upcoming meeting of full council to lower the intervention threshold for repairing potholes on concrete roads with a tarmac layer. The tarmac on these roads is only 30mm thick, so any potholes will be less than the required 40mm.
- The "travel plan" for the nursery, given when planning permission for a new use was approved, has now been found and this may help resolve some of the parking problems in Millfield Lane and Ebor Way.
- Apparently, work is being carried out on what can and can't be done to the verges, with the aim of ensuring the best for pollinators and biodiversity and preventing farmers from illegal flailing and cutting but keeping verges low where appropriate. Efforts are still being made to understand the reasons for the issues seen in mowing the verges in the villages so far this year.
